

Designed for Exclusive Living Spaces

Surface Switch Series

We offer exclusive smart home experience for your living spaces with unique products and features based on design and technology.

Technology

We are constantly working to provide innovative solutions in every product we develop. Innovation will appear in different forms in each Core products. Sometimes as a different sensor technology, sometimes by using a new production technique, sometimes by offering a different user interface.

Design

We believe in the power of simplicity in design, and we work hard to create minimalist, beautiful and intuitive products for your smart home. You can see the perfection in the details and the originality in the design in all Core products.

Craftsmanship

We carry out all electronic manufacturing, mechanical manufacturing, assembly, and quality control processes with our skilled personnel and state-of-the-art machinery in-house.

Surface Switch Series

Modular & Refined Identity

The Surface design line draws inspiration from modern architecture. With elegant lines, balanced proportions, and a modular structure, it offers a clean yet striking presence that complements contemporary spaces. Its customizable simplicity evokes a sense of technical perfection with every touch.

Premium Finishes for Exclusive Living Spaces

Silky-Matte Finishes

On each aluminum Surface Modular Switch, carefully selected color tones are applied through a multi-layer painting process, then sealed with advanced coating techniques. This artisanal approach not only ensures long-lasting durability but also delivers a distinctive silky texture — offering a luxurious feel and visual elegance in every interaction.

Brushed Finishes

Each Surface Modular Switch is crafted from pure brass or aluminum, meticulously brushed to achieve a satin effect texture — delivering both visual refinement and a tactile elegance with every touch

Aluminum Grey

Aluminum Black

Nickel

Brass

Artisan Finishes

Expertly formed from pure brass, each item is refined through sophisticated coating or aging techniques. Due to their artisanal nature, subtle variations in patterns may be present which elevate your space with character and exclusivity.

Aged Brass

3 M Frame

One Design Line, Three Distinct Experiences

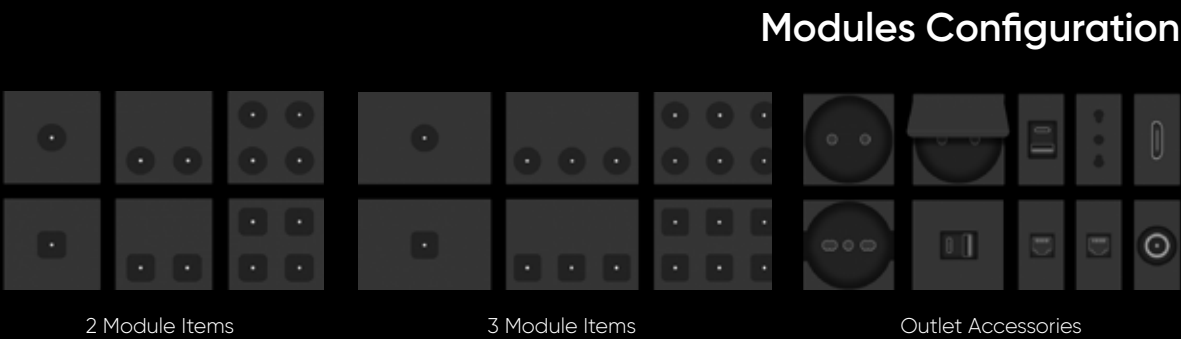

Core's timeless product family unites elegant design, intuitive technology, and refined functionality. The ultra-slim Eclipse Room Controller adds sophistication and clarity to any space with its high-resolution display and seamless user interface. The Surface Switch Series offers precise control over lighting, curtains, music, and scenarios through a sleek, modular design enhanced by RGB indicators. Fully integrated with CoreOS, the Multi-Room Audio Streamer delivers a discreet yet immersive audio experience, harmoniously blending into modern living environments.

Designed for Exclusive Living Spaces

Crafted in Every Detail for You

Every Surface switch is meticulously crafted to reflect your unique vision. From frame size to module configuration, finishes selection to engraving, every detail is tailored to your preferences—ensuring a seamless fit with your space and style. This is not just customization. This is craftsmanship, made personal.

Easy Installation and Maintenance

Core's modular design enables fast installation and easy maintenance, with all parts working seamlessly together for long-term reliability.

1:1 Scale

Surface GRMS Module

A minimalist, Italian-standard modular switch series designed for KNX systems. Combines multiple functions in a single frame with flexible configurations.

Features customizable RGB lighting, 3 size options, 12 premium finishes, and CNC-crafted quality—where technology meets craftsmanship.
